How to apply tags on the terminal blocks

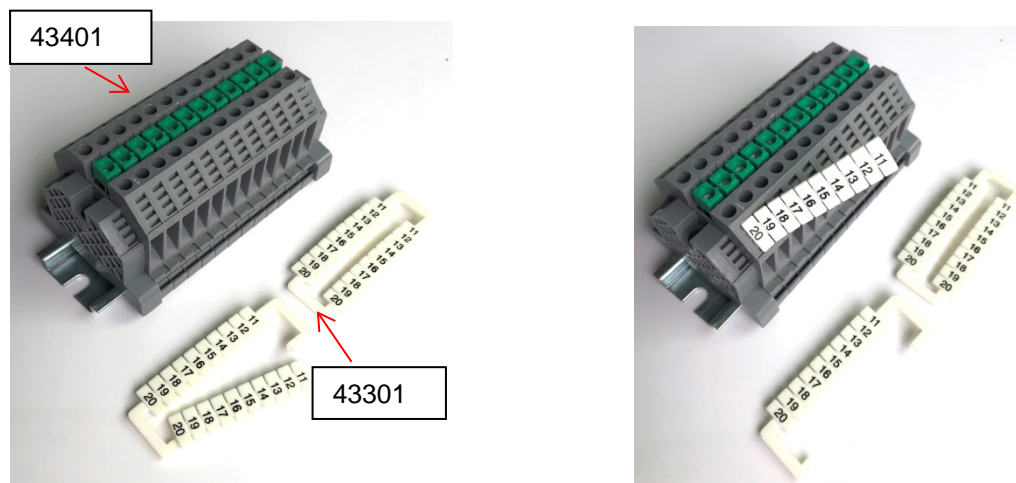

Terminal blocks with 5,1mm width:

this sequence, which allows 10 terminal blocks side by side to be marked with a single operation, applies to the following codes:

Item	Description
EURO 2.5	Feedthrough terminals 2.5 mm ² – pitch 5.1
EURO T2.5	Disconnecter terminals 2.5 mm ² – pitch 5.1
EURO F2.5	Universal Flat-type fuse holder terminals 2.5 mm ² – pitch 5.1
EURO X2.5	Pluggable terminals 2.5 mm ² – pitch 5.1

Terminal blocks with a width greater than 5.1 mm:

In the case of thicker clamps, the card must be applied individually to each individual clamp, and applies to the following codes:

Item	Description
EURO 4 to EURO 95	Feedthrough terminals
EURO T	Disconnecter terminals
EURO D4	Two stage terminals 4 mm ²
EURO S	Fuse holder terminals
EURO E	Earth terminals
